

Purpose & Members

As the voice of the community, the Downtown Stakeholder Committee (DCS) will play a crucial role in offering valuable insight, advice, and expertise. The Downtown Stakeholder Committee is a representation of various neighborhoods, industries, businesses, professionals, council, commissions, and other relevant stakeholders. Their diverse perspectives and experiences will help guide the consultant and staff in the development, facilitation, production, and delivery of the City of Wharton's Downtown Master Plan. The Committee will consist of approximately 15-20 members, and we anticipate holding four to five meetings over the next eight months.
