Chad Odom – Public Information Officer

County Health Authority – Dr. Jeffrey Gubbels

Wharton County, TX, Sunday, July 5, 2020 1000 hours

Wharton County Office of Emergency Management has received a report today from the Texas Department of State Health Services that we have **four (4)** new positive cases of COVID-19 and **zero (0)** new recoveries to report.

The total who have tested positive for COVID-19 is now **two hundred twenty-three (223)** in Wharton County and we have had **seventy-two (72)** reported cases who have recovered and sadly, one death. Wharton County has **one hundred fifty (150)** active COVID-19 cases.

The recent upward trend in positive cases means we **must** remain diligent in our social-distancing and hygiene efforts. Now is not the time to let up on our social-distancing practices! **Take personal responsibility** and **do your part** to slow the spread of this disease. Continue to avoid crowds, wear masks when it is required or at other times when you feel it is in your best interest to do so, and use good common sense when out in the community to avoid spreading disease. This increase in the spread of the virus can be curtailed by our actions.

WE MUST TAKE THE PREVENTATIVE ACTIONS NOW TO SLOW THE SPREAD OF COVID-19!

Unfortunately, complete demographic information was not available on the new cases.
