### County Health Authority – Dr. Jeffrey Gubbels

### *Wharton County, TX, April 10, 2020*

Wharton County Office of Emergency Management has received **two(2)** reports of new positive cases of COVID-19 today. One new case is a male of unknown age that resides in the city of East Bernard. Another new case is a male between 40-50 years old that resides in Louise. The method of transmission in both of these cases is unknown at this time. This brings the total known and previous positive COVID-19 patients in Wharton County to **twenty-six(26)**. The good news is that Texas DSHS also reports that **seven(7)** of the previously reported cases have now recovered, leaving Wharton County with **nineteen(19)** active COVID-19 cases.

As testing continues, our efforts to stop the virus must not slow down and we must continue to work hard to slow the spread in our area. The Executive Orders issued by Governor Abbott remain in effect statewide. The Governor has ordered Texans to stay at home, only go out and about for essential work or to retrieve essential goods. This means that you may go out to the grocery store, seek medical care and continue the use of drive-thru, pick-up and delivery services for food and drinks from local restaurants. The order also mandates all non-essential businesses to close. Further, the CDC has recommended utilizing a cloth face covering when going out in public. Residents are strongly urged to follow this and keep your face covered, especially if purchasing groceries.

**WASH YOUR HANDS  
STAY HOME**

Wharton County OEM will provide updates at <http://www.co.wharton.tx.us/> and on Facebook.
