

Santa Fe Walking Trail

A couple of years ago, this trail was a thought and a dream of the Wharton Civic Clubs. A place where young and old could walk, talk and enjoy the outdoors. It is now almost completed. It has a beautiful rotary fountain, porticos to protect you from the sun and rain with benches to allow you rest and conversation. The trail is bordered by landscaping of trees, floral bushes and lamplighting. What a joy to be able to take evening walks and feel safe while walking.

This wonderful addition to our community has been a project of the Wharton Rotary Club. It has become a reality through your generosity, and through major donations of those individuals who want our community to be one for all to see. It has been made possible by city employees involvement in time and work, as well as donated time by citizens of Wharton, and it's Civic Clubs.

There are just a few additions we need to complete it; flag poles to honor our great country and state, signage to represent our great community, street markings for safe access and a few others.

We now have a beautiful courthouse, a great museum, a great square, restored railroad depot and tee-pee courts which is only one of four in existence.

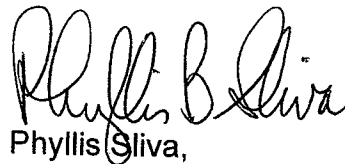

There are so many things yet to be accomplished. We can do this with your help through your donations. When we work together we can accomplish anything.

Make your contributions payable to the City of Wharton / Santa Fe Trail Project.

Thank you for your consideration.

J. James Spano,
Past President of Wharton Rotary Club

Phyllis Sliva,
President of Wharton Rotary Club
