City of Wharton Preparation for Severe Weather

Wharton, TX, January 13, 2024-

The National Weather Service has announced that an arctic blast will be moving through the region starting tonight. Lingering moisture overlapping with the cold air's arrival will lead to the possibility of freezing rain across the area. With temperatures expected to drop below freezing, it is a good time to make sure People, Pets, Pipes and Plants are protected.

Additional Safeguards:

- Avoid going outside if it is not necessary. If you do, make sure you layer up from head to toe.
- Pets, like humans, are vulnerable to cold temperatures. If not taken care of properly, they can succumb to frostbite and even hypothermia.
- Make sure to cover all your exposed pipes with a cover. You can also cover your pipes with towels, duct tape or another adhesive strap, if they are wrapped tightly.
- When cold weather hits, it's a good idea to bring in all your outdoor plants. If you can't bring the plant indoors, cover them with a blanket to make sure they do not die.

The City of Wharton will continue to monitor the storm for the safety of all citizens. Please stay informed by tuning into local radio, local television stations and by liking the Wharton Police Department, and/or the City of Wharton OEM's Facebook pages.

Also, if you or someone you know has not signed up for the emergency alert system to keep you better informed of emergency situations, city related issues and notifications, do it today. The signup for the system can be found on the City of Wharton website at www.cityofwharton.com by clicking the Sign Up for Smart911 button.
