City of Wharton Mosquito Spraying Schedule

Wharton, TX, June 13, 2023-

Tonight, and tomorrow night at 10 p.m., the City of Wharton will begin spraying for mosquitoes, if conditions permit. Please be aware that spraying will not occur if it rains or if the wind speed exceeds 10 mph.

While it is not mandatory to bring your pets indoors during spraying, it is recommended to minimize their exposure to the spray. Additionally, please ensure that there is no standing water on your property, such as unused flowerpots or other items in your yard that may contribute to mosquito breeding.

If you have any additional questions or concerns, please do not hesitate to contact us.
