

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

The City of Wharton has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality( TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. From July 1st, 2024, through December 31, 2024, we did not monitor or test for contaminants and therefore cannot be sure of the quality of your drinking water during that time.*

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for these contaminants. how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were will be taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Water quality Parameters -Distribution System	12	6	3 <sup>rd</sup> Quarter of 2024	2025
Water quality parameters -Entry point to the Distribution System	16	8	3 <sup>rd</sup> Quarter of 2024	2025

### What is being done?
